Date: 28.06.2024

TO WHOM IT MAY CONCERN

This is to certify that **Mr. Deepak**, a B.Tech. in Computer Science & Engineering student of Chandigarh University, has completed the project titled “**Drone Application and Detection of Foreign Objects on Runways**” as a part of his internship programme from 17th of May, 2024 to 28th of June, 2024 in the Department of Computer Science and Engineering, Indian Institute of Technology Guwahati.

I wish him all the success in his future endeavors.

Prof. Pradip Kumar Das

Letter of Recommendation

I am pleased to write this letter of recommendation for Mr. Deepak, who has successfully completed a six-week internship under my supervision in the CSE Department at the Indian Institute of Technology Guwahati. During this period, Deepak demonstrated exceptional skills and dedication in the field of drone application and foreign object detection on runways.

His work focused on developing and refining algorithms for detecting foreign objects on runways using drones. He exhibited a thorough understanding of both the theoretical and practical aspects of the projects. His ability to integrate hardware and software components seamlessly was particularly impressive.

He is adept at programming languages such as Python, C/C++, and Java, and has experience with ROS and various drone-related software. His practical knowledge was complemented by a strong theoretical foundation in robotics and drone technology. He showed an excellent grasp of numerical methods for integration and optimisation problems, which he applied effectively in this project. Deepak's work ethic and enthusiasm for learning were commendable. He was always willing to take on challenges and worked diligently to overcome them.

In conclusion, I am confident that Deepak has the potential to excel in any future academic or professional endeavours he chooses to pursue. His technical skills, dedication and ability to innovate make him an outstanding candidate for any opportunity he seeks. I highly recommend him without any reservations.

Should you require any further information, please do not hesitate to contact me.
